

30 Products Under \$30

LIGHTING

1. LED bulbs (around \$11 each)
2. Light dimmers (around \$30) - Conserves energy by using less light
3. Lighting Timers (around \$25) – Programs lights in home with multiple settings for day/hour/minute/vacation mode
4. Outdoor CFL bulb (around \$20)
5. Solar powered outdoor lights (around \$25) - Uses solar energy to light outdoor space
6. LED Automatic Night Light (around \$6) - Automatically turns on and off for extra light
7. Solar Powered Motion Security Light (around \$30) - Uses LED lights, solar energy and a timer
8. Motion detector light switches (around \$30) – Automatically turns lights on and off with sensing technology

ELECTRONICS

9. Programmable Thermostat (around \$25)
10. Advanced Power Strip (around \$28) – Helps reduce electricity wasted when devices are idle
11. WiFi Smart Plug Remote Control Socket (around \$20) – Allows you to control home appliances from your phone/tablet anytime, anywhere
12. Kill A Watt (around \$20) – Connect appliances to the Kill A Watt meter to assess how efficient they are.

WATER

13. Water Heater Blanket (around \$28)
14. Garden Hose Irrigation Controller (around \$20)
15. Low Flow Showerhead (around \$20)
16. Energy Efficient Hose Nozzle (around \$7) - Helps control water distribution
17. Rainwater Collection (around \$20) - collects rain water from downspouts for re-use in gardening
18. Green bathroom sink faucet (around \$23) – Includes a ceramic control cartridge which provides water flow control
19. WaterDex Black Rain Sensor (around \$9) – Works with any irrigation controller and adjusts based on weather index by zip code. Reduces irrigation water waste.
20. Water Leak Detection Alarm (around 22) – Alarm sounds when cable senses water
21. Digital Shower Timer (around \$10) – Water resistant shower timer/alarm
22. Faucet Aerators (around \$5)

HEATING / COOLING

23. Pipe Insulation (around \$3 each) – Reduces unwanted heat gain or loss around pipes to maximize energy savings
24. Ventilation fans (around \$25) - Helps circulate and distribute air throughout house
25. Rolling Shades (around \$10-\$15) - Provides solar heat during the day / keeps cold air out
26. Weatherstrip seal (around \$10) - Helps seal window and door frames for heating and cooling
27. Window Kit Insulating Film (around \$14) – Clear film covers entire window for insulation
28. Caulk (around \$7)
29. HVAC filters (around \$30)
30. Magnetic vent covers (around \$5)
